The End

Thank you very much for picking up Matsukin volume 2!
I hope you enjoyed it. I depicted various kinds of girls and their
relationships in this manga and was really happy that it got
serialized! I felt like delving a bit deeper into the lives of working
adults and otakus. I didn't draw any childhood friends in the
end though!!!! "crap"

Well, this is a romance manga... watching people's relationships unfold
and witnessing them making each other happy is really fun, isn't it?!!
If I managed to convey this feeling to you even just a little, that'd
make me very happy. Also feel free to send me any feedback and
opinions you have!
